About the COVER

In full swing toward new horizons

Time and again, we find ways to make Banco de Oro the bank that fully and truly caters to its clients' banking needs. With our new logo, we reaffirm this commitment to you; and as we work hard to be in tune with your needs, just as much, we work in full swing to seek new and innovative ways that anticipate your thoughts and ideas about what your bank should be as our world evolves.

Commitment to Shareholders

We are committed to provide our shareholders with superior returns over the long term.

A New Corporate Logo

Along with Banco de Oro's continuous growth and expansion to new markets arose a need to refine its existing corporate image.

A new logo was designed that uses a simple typeface, all in upper case to represent strength and stability — in the vein of contemporary design simplicity, to communicate easy, friendly and less complicated banking.

Gold is applied to the letter **O** of "**Oro**", meaning "**gold**" in Spanish — a most fitting addition to the Bank's corporate colors. Its timelessness and richness enhance the blue color of the old logo — illustrating the Bank's faithfulness to its vision.

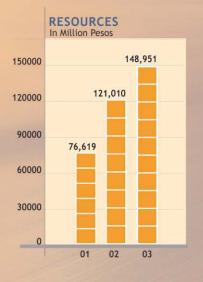

The gold "O" becomes the strong icon for the Bank, evoking an image of a gold coin that keenly etches "Banco de Oro" in people's minds: a strong, reliable, solid and approachable partner, fresh and forward thinking with its services, imbibed with a strong sense of history and enduring loyalty to its clients.

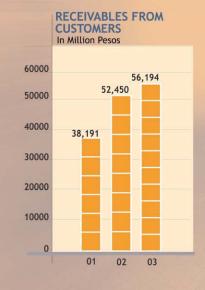

Corporate Mission

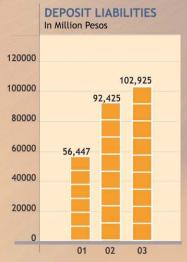

To be the preferred bank in every market we serve by consistently providing innovative products and flawless delivery of services, proactively reinventing ourselves to meet market demands, creating shareholder value through superior returns, cultivating in our people a sense of pride and ownership, and striving to be always better than what we are today... tomorrow.

Message from the Chairman Emeritus

Panco de Oro Universal Bank's performance in 2003 has given me great satisfaction, not only because of its remarkable growth – it now ranks 9th in the industry – but also because of the many new ways it has tried to serve our customers and clients.

Our business philosophy has always been focused on service, endeavors, the importance of which I try my best to impart

to those I work with. With this emphasis on service, your Bank is getting closer to our goal of its becoming the Number One Bank in the country, not necessarily in terms of size but in terms of performance.

During the past year, we were able to expand our Bank's network, increase our capital position, maintain our asset quality, and offer our customers innovative banking products and services. I am also pleased to let you know that we were enthusiastically received by the international investment community and cited by regional banking groups.

Once again, I wish to congratulate Banco de Oro's management and staff for their continuing commitment to service and excellence. And to our customers and shareholders, I wish to thank you for your support and patronage.

Henry Sy, Sr Chairman Emeritus

Message from the Chairman

am pleased to inform you that your Bank was able to achieve double-digit growth in a particularly challenging time — net earnings increased by more than 42%, while resources grew by 23%.

With the full integration of First E-Bank, we were able to expand our Bank's network to 180 branches, serve new markets, and establish our presence, particularly in the Northern Luzon and Mindanao regions.

Likewise, our acquisition of Banco Santander Philippines and its brokerage unit in July 2003 has given us access to a new

market segment — the high net worth investor. Renamed the BDO Private Bank, it will focus on providing services to the upscale market.

Your Bank's venture into the international capital markets was not only outstanding, but broke records in the country. The 7 1/2 times over subscription of the US\$ 150 M Senior Notes reinforced the confidence of investors and clients in Banco de Oro.

I am pleased to let you know that each of your Bank's units approached the year's challenges with dynamic solutions. As such, the growth of both our Lending Group and Trust businesses outpaced the industry average. On the capital markets front, your Bank was an active participant in major syndicated financing transactions. With the use of technology and through strategic focus, your Bank's cash management business has built a strong presence in the market.

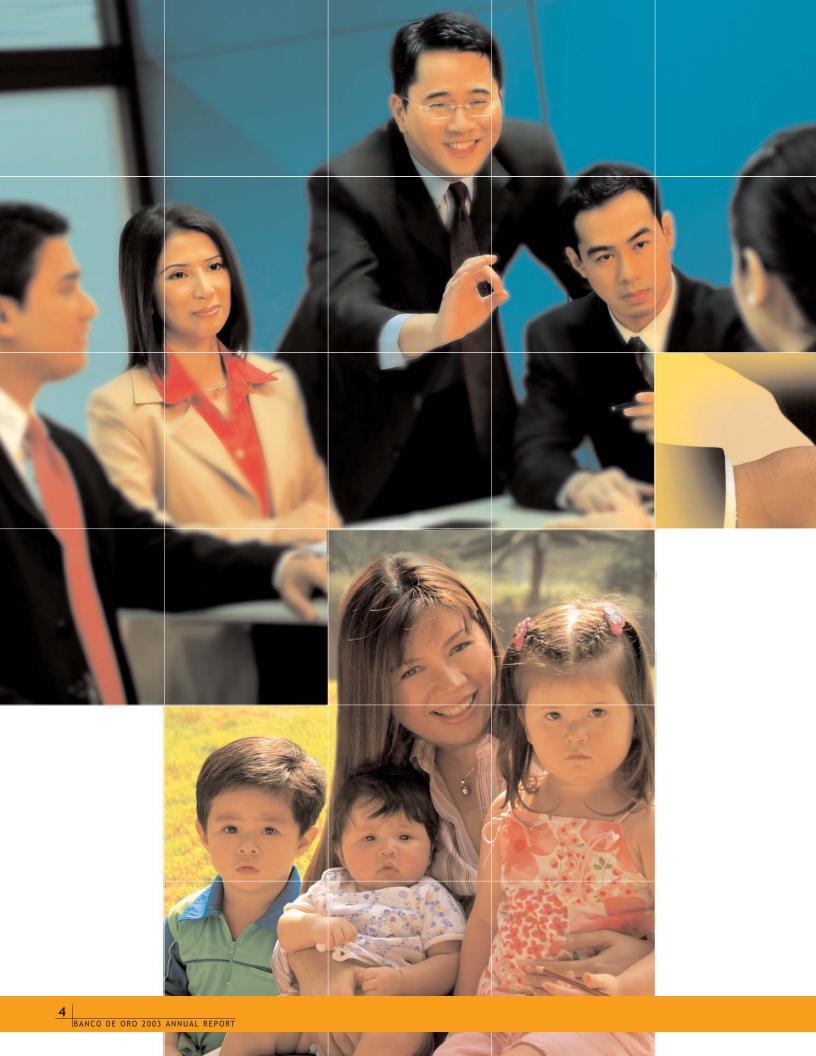

In the retail sector, we continued to find ways to serve our customer better through non-traditional banking products. The BDO Mastercard was launched in the third quarter of the year, while the BDO Cash Card achieved substantial growth both in terms of customers and the volume of transactions handled.

In line with this, I am happy to let you know that the BDO Cash Card was cited by prestigious regional banking groups: the Asian Banking Award for Best Marketing, PR or Brand Management, and the Asian Banker Award for Retail Product Excellence.

This year, your Bank will continue to forge synergies, reach out to new markets, and find ways to serve you better amidst a challenging business environment.

We thank our customers, employees, officers, and shareholders for the continuing support and trust in us.

Teresita T. Sy

The Bank gained access to new markets previously not served and embarked on a renewed drive to build its consumer lending business. he country posted a GDP growth of 4.5% in 2003, slightly better than the 4.4% in 2002 amid the outbreak of Severe Acute Respiratory Syndrome (SARS) which resulted in a slowdown in tourist traffic in the region. The Oakwood mutiny in July heightened the political uncertainties and further dampened investors' sentiment.

Meanwhile, the 91-day Treasury bill rates averaged 5.99% for the year against 5.85% in 2002. The government's continued deficit spending and the 5.2% deterioration in the average peso exchange rate from P51.59/US\$ to P54.25/US\$ exerted pressures on the interest rates. The relative stability of inflation at 3.1% eased off some of the pressure on the interest rates.

For 2004, the Philippine macro economic conditions are likely to remain stable but growth is expected to be subdued at the range of 4.2% - 4.7%.

BUSINESS PERFORMANCE

ACCOUNT MANAGEMENT GROUP

Account Management Group (AMG) continued to expand and generate above average growth relative to the industry. The Bank managed to grow its Net Loans by P3.7B or by 7% (15% on a comparable basis), compared to the banking system's net loans contraction of 4.2% in 2003. This development enabled the Bank to sustain the increase in its market share over the last few years.

The loan portfolio growth was achieved without a corresponding deterioration in asset quality. The Non Performing Loans (NPL) ratio at end-2003 remained single digit at 6.6% and still one of the lowest in the industry, while the overall average stood at 14.1%.

The Group likewise intensified its efforts to cross-sell the other business lines of the Bank. As a result, the percentage of revenues from non-loan products to total revenues went up to 40%. This healthy proportion of fee-based income reduces the Bank's vulnerability to adverse movements in interest rates.

Corporate Banking - Strengthening relationships through creative structures

Corporate Banking Group (Corbank) focused its efforts in strengthening the relationships with its large corporate and institutional clients, through a combination of creative financing structures and tailor-fitted treasury and cash management solutions that addressed clients' specific needs. This was evident in the Corbank's participation in major financing deals such as the term facility agreement with the Aboitiz Group, the term loan agreement with Monark Equipment Corp., and the project financing facility for the State Power Development Corporation.

Commercial Banking — Expanding coverage into new markets

Commercial Banking Group (Combank) which handles the bank's middle market and SME lending, worked on the expansion of its client base, through a wider coverage of markets in Metro Manila, and by leveraging on the converted branches of First E-bank in areas not being served by the Bank, such as Cagayan de Oro and Iligan in Northern Mindanao and, the western corridor of Northern Luzon. It also offered new financing programs that provided alternative sources of funding and better portfolio risk management. The Special Financing Facility with developmental institutions allowed clients access to non-traditional funding sources. The Export Development Facility, in partnership with the International Finance Corporation (IFC), offered export financing to Small- and Medium-Scale Enterprises (SME) such as furniture and housing accessory manufacturers. The Co-Guarantee Facility, also in partnership with IFC, gave the Bank the opportunity to bid for large deals without sacrificing risk concentration.

INVESTMENT BANKING

BDO Capital

BDO Capital & Investment Corp.'s (BCIC) mandate is to provide clients with an integrated approach to capital raising, ranging from syndicated loans, capital market initiatives and off-balance sheet financing alternatives. This

allows for a more comprehensive approach to client servicing particularly with lending clients.

Testimony to its success is its participation in over P25 B worth of capital raising exercise from clients like Philippine National Oil Company (PNOC), the Ayala Group, San Miguel Corporation, SM Prime and Rizal Commercial Banking Corp. (RCBC).

BCIC registered a net income of P132 M in 2003. Considering the non-recurring gain from the secondary sale of shares in the IPO in 2002, net income actually improved by 70%. The company maintained its ranking as one of the top investment houses in the industry.

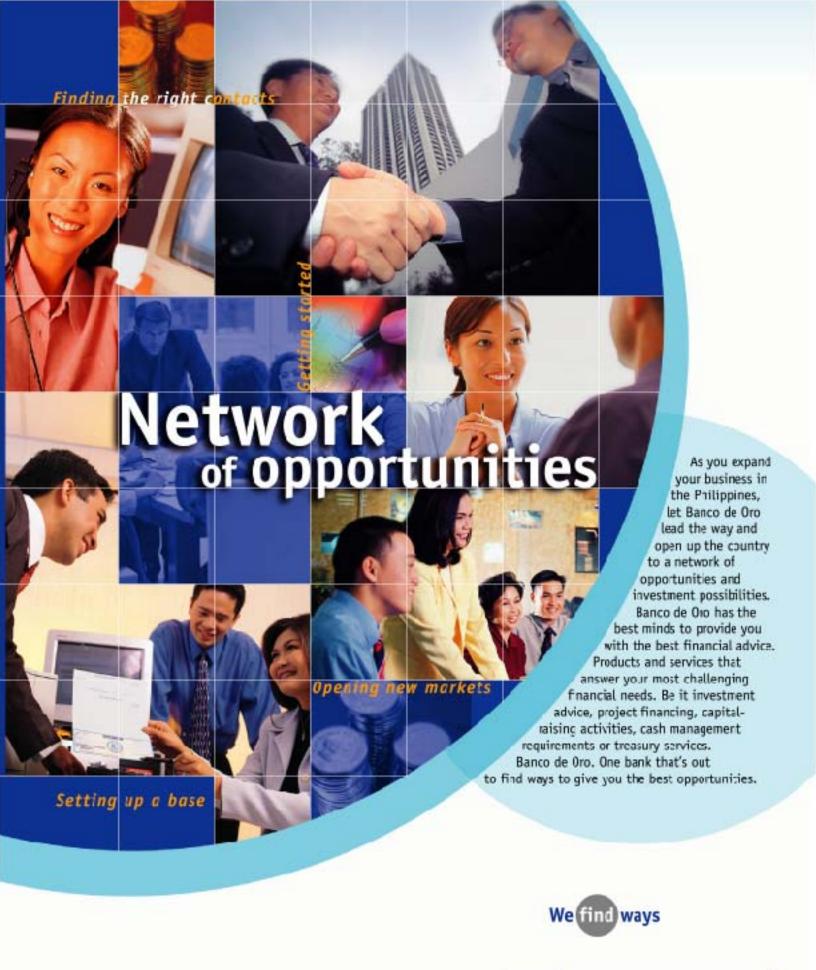

CONSUMER LENDING GROUP

Mortgage Financing & Auto Loans

The Bank embarked on a renewed drive to build its consumer lending portfolio, as it aimed to have a more meaningful proportion of its loans assigned to this market segment. The Bank re-tooled its processes to provide a more consistent and competitive service to its clients. Likewise, a reorganization of the Group was effected for better customer focus and easier access to complementary products. In light of this, the Group is now responsible for Mortgage Loans, Auto Finance, Personal Loans and Credit Cards.

BDO Credit Card

The BDO Master Card was launched in the latter part of 2003. Despite a "soft" public launch, the number of cardholders has been gradually increasing. As of year-end, 10,000 cards have already been issued. Now that the start up phase is over, substantial growth is expected in 2004.

The strong reception of the senior notes issue allowed the Bank to be recognized in the international financial community.

BRANCH BANKING GROUP — Expanding into new communities

The Branch Banking Group's (BBG) primary thrust during the year has been to expand its network and reach new communities. The objective is to cover a wider area and to deliver better services to existing clients as well. The acquisition of the First E-bank branch licenses in 2002 was part of this strategy, allowing the Bank to grow its branch network to 174 live branches by year-end. As a result, the Bank gained access to new areas/markets previously not served, and reached potential clients in Northern Luzon, Bicol and Mindanao.

The integration of these First E-bank branches into the Bank's systems was completed during the year. Going forward, these branches are expected to be major contributors to the Bank's profitability.

In its drive to make banking a pleasant experience, branches were improved and renovated. The Group also developed the Branch Clustering Program, resulting in the availability of seven-day banking services in some designated areas. The branches will continue to be the Bank's primary channel for delivering various products and services to its customers.

PRIVATE BANKING

BDO Private Bank

BDO acquired Banco Santander Phils. Inc. (BSPI) and its brokerage unit Santander Investment Securities Phils. Inc. (SISPI) from Santander Central Hispano. This gave BDO access to a new market segment that primarily caters to the high networth investors. BSPI was renamed as BDO Private Bank Inc. (BDO Private Bank) while SISPI was renamed BDO Securities Corp. (BDO Securities). BDO Private Bank is a one-branch operation and its emphasis is on customer service and privacy, offering comprehensive array of services for the high networth market. It will be maintained as a separate legal entity focusing on private banking and the origination of corporate paper for distribution to its clients. BDO Securities will offer securities custodianship and stock brokering services to the private banking clients.

TREASURY GROUP — Maintaining a leadership position

The strong market performance enabled BDO Treasury to contribute significantly to the Bank's profitability. Amidst pressure from competition and market volatility, it continued to be a major market player and a member of the fixing banks in foreign exchange and government securities dealership.

To ensure excellent and timely service, BDO Treasury launched its Cebu Desk this year. The Bank's clients in the Visayas region can now readily access market information and execute transactions with this strategic move.

To manage the bank's funding mix, the Treasury Group initiated the issuance of the US\$150M BDO Senior Notes as a fund-raising exercise to provide a medium-term source of funding. This financial exercise allowed the Bank to be

recognized in the international financial community. The strong reception by the investors, which resulted to more than seven times over subscription on the issue, clearly affirmed investors confidence in BDO, alluding to the Bank's consistent financial performance and growth over the last few years. With this warm reception on its maiden issue, the Bank may consider tapping the international markets again for future issuances of either debt or equity securities.

TRUST BANKING — Consistent & sustainable performance

Trust Banking Group (Trust Group) recorded a 46% growth in Assets Under Management (AUM). BDO Trust is now ranked as the 4th largest in the industry, moving up one notch from 2002. Common Trust Funds (CTFs) comprise 62% of total trust assets, while Trust & Other Fiduciary Assets (TOFA) account for 19%. The growth in CTFs is attributable to the fund-generating capabilities of the branch network, while the increase in TOFA stems from intensified marketing and cross-selling efforts in traditional markets like institutional funds, corporate retirement and corporate agency services.

The Bank acquired new systems to further enhance Trust Banking Group's capability to service its clients. This improved the Group's portfolio management, trading, investment analysis and reporting capabilities. On top of these service enhancements, Trust Group launched the Wealth Planner, a

new product aimed at tapping high net worth individuals. The product gave them access to investment outlets not usually available to individual investors, at the same time, providing them the flexibility to customize their preferred portfolio to suit their financial needs and risk tolerance.

The Trust Group continued to perform well relative to its peers. Apart from the consistent citation in the Watson Wyatt survey of fund managers, BDO was ranked number one for the fourth quarter and for the whole year of 2003 in the 76th Survey on Investment Performance of Retirement Funds in the country. This extended BDO's record as a topnotch fund manager for three consecutive years from 2001 to 2003 and solidified its status as one of the country's top asset managers.

TRANSACTION BANKING - Redefining the way people bank

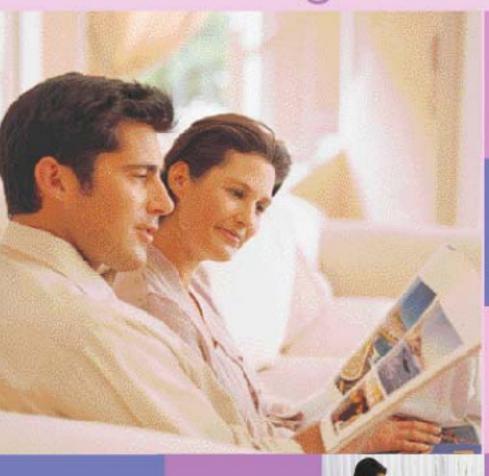

Transaction Banking Group (TBG) provided non-traditional banking products through corporate cash management and retail financial transaction services. Initially, the focus of the Group was on the development of the corporate market segment, which was successfully expanded from 100 clients in 2002 to over 3,500 by the end of 2003. The total volume of transactions handled by TBG leapfrogged to P77 B in 2003 from P1 B in 2002.

Similarly, the retail segment experienced substantial growth, both in terms of customers and volume of transactions handled, primarily through the BDO Cash Card and Smart Money MasterCard. By year-end, the total cardholder base for the Bank's debit cards reached 750,000. Other products such as Phone Banking, Internet Banking, Call Center and the ATM network all exhibited notable increases in terms of number of customers and product usage.

The newly launched BDO Cash Card, one of the prepaid debit card products, garnered two prestigious international awards namely the Asian Banking Award for Marketing, PR or Brand Management and the Asian Banker Retail Product Excellence Award.

Future initiatives will be focused on merchant acquisition, in order to provide a much larger network that can accept and process transactions using any of the Bank's card products.

INSURANCE

BDO Insurance Brokers Inc. Generali Pilipinas

BDO's insurance businesses continue to be strong despite being relatively newcomers in the industry. BDO Insurance Brokers Inc. (BDOI) posted a 43% increase in premiums to P408M, and a 17% improvement in commissions to P61M. The Bank's life and non-life affiliates, Generali Pilipinas Life Assurance Company and Generali Pilipinas Insurance Company, posted notable growth in 2003, with combined premiums amounting to P744M, up by 24% compared to 2002. With the recent BSP approval for BDO to go into bancassurance, the Bank is now able to sell insurance products through its branch network, expanding the array of products available at its branches.

REAL ESTATE MANAGEMENT

BDO Realty

BDO Realty Corp. (BRC) was formed in the early part of 2003 to provide a real estate industry perspective to the disposition of foreclosed assets, and in the process extract best value out of the bank's acquired assets. Manned by industry professionals, the company studies "best use" options for the Bank's acquired properties and, where appropriate, helps in the implementation of strategies. As a result, several partnerships have been made with established companies to develop and market a number of bank-owned properties for the middle-income housing market, including a 127-hectare property in Gen. Trias, Cavite with Sta. Lucia Realty & Development Corp.; a marketing arrangement with Moldex Realty Marketing Inc. for the disposition of subdivision lots; a 5.8-hectare development with Jardine Properties in Kalookan City and a 3.4-hectare in-house development in Dasmariñas, Cavite.

The Bank's acquired assets in the hands of professionals can be a major contributor of value to the bank in the years to come.

CREDIT & RISK MANAGEMENT - Developing a credit and risk culture

Consistent with the Bank's objective of prudent risk management, the organization of Credit & Risk Management was further enhanced with the creation of additional units to handle specific areas of bank operations. The Credit Risk function was expanded into corporate and consumer credit, consistent with the Bank's renewed drive to build its corporate as well as consumer portfolio. Market Risk monitoring was also put in place for Treasury's trading and investment activities. The implementation of the Operations Processing Integrated System (OPICS) allows for portfolio analysis and up-to-date monitoring of trading limits. Future initiatives will center on addressing operating risk in preparation for Basle 2.

Information Technology Management

The Information Technology Group was reorganized into 3 areas to give it more focus—Development, Operations and Support. This structure is expected to be more responsive in addressing the information technology requirements of the various business units. Major projects undertaken in 2003 include the acquisition of systems for the remittance and trust businesses, development of systems for credit card/consumer lending, upgrade of the Bank's core system, and updating and testing the Business Continuity Plan to ensure a speedy return to operating levels in case of contingencies. Initiatives for 2004 are focused on the completion of some of the projects started in 2003, further development/enhancement of cash management products of Transaction Banking, the completion of the implementation of OPICS in Treasury Group, and improvements in the Account Profitability Analysis system of the Account Management Group. Other projects to ensure a more efficient and stable technological infrastructure are continually being developed.

Human Resources Management

Given the rapid growth of the Bank, it is important to nurture the corporate culture that made the Bank the institution it is today. Human Resources Management (HRM) was tasked with the communication of the Bank's corporate culture that embodied the values, vision and management

philosophies of the Bank. Promotion of bank professionalism and meritocracy throughout the organization into one unified team despite the diverse origins of its officers and staff were given utmost importance.

The "We Find Ways" approach to businesses was disseminated throughout the entire organization, creating a work ethic that gives the Bank its competitive edge.

SUMMARY

Overall, 2003 was a good year for Banco de Oro having achieved 23% growth in resources and over 50% increase in net income. The Bank succeeded in expanding its market coverage through the full integration of the First E-Bank branches, and deepening client relationships. Through the Private Bank, BDO's reach now extends to the mass affluent and High Net Worth segments. These were complemented by the continual expansion of the Bank's products and services, that addressed changing markets.

Together with these, corporate governance programs and risk management practices were upgraded to provide better decision support system for management. For more transparency, Moody's Investors Service and Fitch Ratings were commissioned to provide foreign investors with a professional assessment of the Bank's financial health and performance on a periodic basis. This move was ably complemented by international road shows that introduced the Bank to potential investors.

Certainly, Banco de Oro is taking big strides in building a solid foundation towards its aim of becoming the best bank in the Philippines.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders Banco de Oro Universal Bank

We have audited the accompanying consolidated statements of condition of Banco de Oro Universal Bank and subsidiaries as of December 31, 2003 and 2002, and the related statements of income, changes in equity and cash flows for each of the three years in the period ended December 31, 2003. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the Philippines. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Banco de Oro Universal Bank and subsidiaries as of December 31, 2003 and 2002, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2003, in accordance with generally accepted accounting principles in the Philippines.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation of Financial Statements

The consolidated financial statements

The consolidated financial statements have been prepared in accordance generally accepted accounting principles and reporting practices applicable to the banking industry in the Philippines.

The consolidated financial statements have been prepared on a historical cost basis except for the measurement at market value of trading account securities and certain derivative instruments.

The accounting policies have been consistently applied by the Bank and are consistent with those used in the previous years.

Principles of Consolidation

The consolidated financial statements comprise the accounts of the Bank (parent company), its subsidiaries (BDO Capital, BDO Financial, BDO Insurance, BDO Card, BDO Realty and BSPI) and Santander Investment Securities Philippines, Inc. (SISPI), an indirect subsidiary, after elimination of

material intercompany transactions.

Subsidiaries are consolidated from the date the parent company obtains control until such time that such control ceases.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting principles.

The minority interest components in the consolidated financial statements, being not material amounts, are shown as part of Other Liabilities and Other Operating Expenses.

Adoption of New Accounting Standards
In 2003, the Bank adopted the following Statements of Financial Accounting Standards
("SFAS")International Accounting Standards ("IAS") issued by the Accounting Standards Council
("ASC") which became effective on January 1, 2003, that are relevant to the Bank:

SFAS 8A SFAS 10/IAS 10 SFAS 37/IAS 37

Deferral of Foreign Exchange Differences Events After the Balance Sheet Date Provisions, Contingent Liabilities and Contingent Assets Intangible Assets

The Bank's adoption of the other new accounting standards did not result in any adjustments to the financial statements of prior years.

In 2002 and prior years, the Bank adopted the new pronouncements issued by the ASC which

became effective in those years.

Certain accounts in the 2002 and 2001 financial statements have been reclassified to conform to the 2003 presentation and classification.

New Accounting Standards Effective Subsequent to 2003

The following new accounting standards issued by the ASC will be effective subsequent to 2003:

- SFAS 12/IAS 12, Income Taxes. This new standard, which becomes effective subsequent to 2003, prescribes the accounting treatment for current and future tax consequences of the future recovery or settlement of the carrying amount of assets or liabilities that are recognized in the consolidated statement of condition of an entity and transactions and other events of the current period that are recognized in the entity's consolidated financial statements.
 SFAS 17/IAS 17, Leases. This new standard, which becomes effective on January 1, 2004, prescribes the accounting policies and disclosures to be applied to finance and operating leases. A finance lease is a lease that transfers substantially all the risks and rewards incident to ownership of an asset. SFAS 17/IAS 17 requires a lessee to recognize finance leases as resources and liabilities in its consolidated statement of condition. SFAS 17/IAS 17 also provides that lease payments under an operating lease should be recognized as an expense in the consolidated statement of income on a straight line basis over the lease term.
 SFAS 21/IAS 21, The Effects of Changes in Foreign Exchange Rates. This new accounting standard requires the recognition of foreign exchange differences as income or as expenses in the period in which they arise and allows capitalization of foreign exchange losses only under certain restrictive conditions. This standard will become effective for the period beginning on or after January 1, 2005.

January 1, 2005.

The Bank will adopt SFAS 12/IAS 21 and SFAS 17/IAS 17 in 2004 and SFAS 21/IAS 21 in 2005 as required, and is currently determining the impact of the adoption of these new accounting standards in its consolidated financial statements.

For purposes of reporting cash flows, cash equivalents include cash and other cash items and amounts due from BSP and other banks

Securities Purchased Under Reverse Repurchase Agreements

The Bank enters into short-term purchases of securities under reverse repurchase agreements of substantially identical securities with the BSP. Interest earned on resale agreements are reported as

Trading Account Securities (TAS)

TAS are presented at their fair market values in accordance with BSP Circular No. 161. TAS are debt securities purchased and held principally with the intention of selling them in the near term. These securities have readily determinable fair market values and are marked-to-market. Any unrealized or realized gains or losses are recognized and booked as part of trading gain or loss account.

This account also includes Available-for-Sale Securities which are purchased and held indefinitely but not until maturity nor for trading purposes. The Bank anticipates that the securities will be available to be sold in response to liquidity needs and/or reduction in legal reserves, liquidity reserves, liquidity floor, security deposits and/or allowable alternative investments. These securities are valued adialy at fair market values to account for both upward and downward market movements. However, unrealized gains or losses are excluded from reported earnings and reported as a separate component of equity until realized.

Investments in Bonds and Other Debt Instruments
Investments in bonds and other debt instruments are stated at cost adjusted for amortization of premium and accretion of discount.

Receivables from Customers
Receivables from customers are stated at the outstanding balance reduced by unearned discount and allowance for probable losses.

Unearned discount is amortized monthly to income over the life of the loans using the straight-line method. Interest income on nondiscounted loans is accrued monthly as earned, except in the case of nonaccruing loans.

Loans are classified as nonaccruing when the principal becomes past due, or when, in the opinion of management, collection of interest and principal is already doubtful. Interest income on these loans is recognized only to the extent of cash collections received. Loans are not classified as accruing until interest and principal payments are brought to current status or the loan is restructured in accordance with existing BSP regulations, and future collections appear assured.

The allowance for probable losses is the estimated amount of losses in the Bank's loan portfolio, based on the evaluation of the collectibility of loans and prior loan loss experience. It is established through a provision for probable loss charged to expense. Loans are written off against the allowance for probable losses when management believes that the collectibility of the principal is unlikely, subject to BSP regulations.

Bank Premises, Furniture, Fixtures and Equipment
Bank premises, furniture, fixtures and equipment are stated at cost less accumulated depreciation and any impairment in value. The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred. When assets are sold, retired or otherwise disposed of, their cost and related accumulated depreciation and impairment losses, if any, are removed from the accounts and any resulting gain or loss is reflected in income for the period.

Depreciation is computed on the straight-line method over the estimated useful lives of the depreciable assets as follows:

10 - 25 years

Buildings Furniture, fixtures and equipment

10 - 25 years 5 years

Fully depreciated assets are retained in the accounts until these are no longer in use and no further charge for depreciation is made in respect of those assets

Revenue Recognition
Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Bank and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

- Interest as the interest accrues (taking into consideration the effective yield on the asset) unless collectibility is in doubt based on BSP guidelines. Profit from assets sold or exchanged when the title to the assets is transferred to the buyer or as gross profit is realized in the case of sale accounted for as installment sale, or when the collectibility
- of the entire sales price is reasonably assured.

 Service charges and penalties recognized as earned when collected and/or when there is reasonable degree of certainty as to their collectibility.

Securities Transactions

Securities transactions of SISPI and related commission revenues and expenses are recorded on the transaction-date basis.

Equity Investments

Equity Investments
Equity investments in companies where the Bank exercises significant influence are accounted for using the equity method. Under the equity method, the Bank recognizes in its statement of income its share in the earnings or losses of the investees. The cost of the investments is increased or decreased by the Bank's equity in net earnings or losses of the investees since the dates of acquisition. Dividends received are recorded as reduction in the carrying values of the investments.

Under BSP regulations, the use of the equity method of accounting for investments in shares of stock is allowable only where ownership is more than 50%. The use of the equity method of accounting for the equity interest of 20% to 50% is being made for financial reporting purposes to comply with the provisions of SFAS 27/IAS 27 issued by the ASC and is not intended for BSP reporting purposes.

Real and Other Properties Owned or Acquired (ROPOA)

Assets acquired in settlement of loans are recorded at the lower of bid price or appraised value, and balance of total loan exposure at the time of foreclosure.

Deferred Charges

Costs incurred relative to the purchase of the Bank's branch licenses are treated as cost of such branch licenses and are carried as "Deferred Charges" (shown under Other Resources in the statement of condition). Such deferred charges are amortized over five years from the date of actual acquisition or transfer of the specific branch license to the Bank. This account also includes the cost of system software and other expenditures related to the conversion of the Bank's information technology system.

Exchange Membership Seat

Membership in stock exchange of SISPI comprising of 50,000 shares of stock and a trading right is carried at cost net of accumulated impairment loss and is presented in the 2003 consolidated statement of condition as part of Other Resources account.

Foreign Exchange Transactions
The accounting records of the Bank are maintained in Philippine pesos. Foreign currency transactions during the year are translated into Philippine pesos at exchange rates which approximate those prevailing on transaction dates. Foreign currency monetary assets and liabilities at the date of the statement of condition are translated into Philippine pesos at exchange rate which approximate those prevailing on that date. Exchange gains and losses are recognized in the profit and loss accounts.

Impairment of Assets

The carrying values of bank premises, furniture, fixtures and equipment; equity investments; ROPOA; other resources; and other intangible assets are reviewed for impairment when events or changes in circumstances indicate that their carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets

or cash generating units are written down to their recoverable amount. The recoverable amount of these assets is the greater of net selling price and value in use.

Forward Contracts

The Bank is a party to foreign exchange contracts entered into as a service to customers and as a means of reducing or managing the Bank's foreign exchange exposures.

For derivative contracts that are designated and qualify as hedges, the discount or premium is amortized over the term of the contract and the revaluation gains or losses are deferred or recognized as income or expense to match the treatment for the hedged item. Derivative instruments which are not designated as hedges are marked-to-market with the revaluation gains and losses credited to or charged against rurent operations. and losses credited to or charged against current operations.

Employee Benefits

The Bank has a defined benefit pension plan covering all regular full-time employees. The pension plan is tax-qualified, noncontributory and administered by a trustee. The cost of providing benefits under the plan is determined using the projected unit credit actuarial cost method, which utilizes the normal cost, actuarial accrued liability and unfunded actuarial liability concepts. Past service cost is amortized and actuarial gains and losses are recognized over the expected remaining working lives of the employees covered by the plan.

Income Taxes

The Bank uses the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial reporting bases of assets and liabilities and their related tax bases. Deferred income tax assets and liabilities are measured using the tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is a remained for the portion of deferred income tax assets which is not expected to be realized in the future. provided for the portion of deferred income tax assets which is not expected to be realized in the future.

Earnings Per Share (EPS)

Earnings Fer James (Er3)

Earnings per common share are determined by dividing net income by the weighted average number of common shares subscribed and issued during the year, after retroactive adjustment for any stock dividend declared in the current year.

Use of Estimates

Use of Estimates
In accordance with generally accepted accounting principles, the preparation of the consolidated financial statements requires the Bank to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Although these estimates are based on the Bank's knowledge of current events and actions it may undertake in the future, these estimates may significantly differ from actual results.

In 2001, the conversion of 334,963,570 preferred shares of the Bank to 284,832,968 common shares was likewise effected.

The application for the increase in authorized capital stock was approved by the BSP on February 14, 2001 and by the SEC on June 15, 2001.

The BOD and the Bank's stockholders approved the following additional amendment to the Bank's Articles of Incorporation, on March 25, 2000 and March 31, 2000, respectively, which provided that preferred shares shall now be classified as follows:

- Preferred shares series A shall consist of the preferred stock issued and outstanding as of March 25, 2000 and which has a vested right to receive dividend of 12% per annum payable out of the surplus profits before any dividends on the common stock of the Bank. Preferred shares series B shall consist of all other preferred stock which shall be issued subsequent to March 25, 2000 and which shall also be entitled to dividends before any dividends are declared on the common stock of the Bank as the BOD may determine.

The additional amendment to the Bank's Articles of Incorporation was approved by the BSP on December 15, 2000 and by the SEC on June 15, 2001.

Unimpaired Capital

Under current banking regulations, the combined capital accounts of each bank should not be less than an amount equal to ten percent of its risk assets. The unimpaired capital of the Bank for purposes of determining the capital-to-risk assets ratio is total equity excluding:

- unbooked valuation reserves and other capital adjustments as may be required by the BSP; total outstanding unsecured credit accommodations to related interests (DOSRI); deferred income tax asset or liability; accumulated equity in earnings of investee where the Bank holds 50% or less but where the equity method of accounting has been applied; and, appraisal increment on property and equipment other than those allowed to be recognized in connection with a preserve of exclusion.
- connection with a merger or acquisition.

Risk assets consist of total assets after exclusion of cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits, and other non-risk items as determined by the MB of the BSP.

The amount of surplus funds available for dividend declaration is determined also on the basis of regulatory net worth after considering certain adjustments.

Minimum Capital Requirement

Under an existing BSP circular, expanded commercial banks are required to comply with the following minimum capital requirements:

P4.95 billion on or before December 31, 1999; and P5.40 billion on or before December 31, 2000.

However, on August 21, 2000, the MB suspended the required level of capitalization prescribed for banks on or before December 31, 2000, such that the 1999 minimum capitalization requirement

still prevails.
As of the dates of the consolidated statements of condition, the Bank has complied with the

18. RETIREMENT PLAN

The Bank has a funded, noncontributory retirement plan covering substantially all of its qualified employees. The retirement fund is administered by the Bank's Trust Department, which acts as a trustee under the plan. The benefits are based on the years of service and percentage of final monthly basic salary. The total retirement cost contribution charged to expense (included under Compensation and Employee Benefits account in the consolidated statements of income) amounted to P59,600,000 in 2003. P124,200,000 in 2002 and P49,200,000 in 2001.

As of March 31, 2002, the date of the latest actuarial valuation, the fair value of the plan assets amounting to P182,715,874 is lower than the actuarial present value of retirement benefits amounting to P261,788,873, resulting to an unfunded past service liability of P79,072,999 being amortized over 10 years. As of December 31, 2003, the unfunded past service liability had been paid in full by the Bank. The principal assumptions used in determining the cost of retirement benefits include an annual discount rate of 12% and a salary increase of 10% per annum compounded annually.

discount rate of 12% and a salary increase of 10% per annum compounded annually

19. LEASE CONTRACTS

The Bank leases the premises for its head office and most of its branch offices for periods ranging from 1 to 15 years from the date of the contracts and renewable upon the mutual agreement of the parties. Rent expense amounted to P256,127,707 in 2003, P207,637,538 in 2002, and P200,805,243 in 2001 (included under Occupancy account in the consolidated statements of income)

Based on management's assessment, the Bank will not realize the income tax benefit arising from NOLCO within the availment period. Accordingly, a valuation allowance of P558,005,992 is provided for the portion of deferred tax assets which is not expected to be realized in the future. The remaining valuation allowance of P212,664,737 represents P191,544,737 and P21,120,000 valuation allowance acquired from DHBI and valuation allowance on impairment loss on SISPI's

exchange membership seat, respectively.

Among the significant provisions of the National Internal Revenue Code (NIRC) that apply to the Bank are the following:

- Corporate income tax of 32% is imposed on taxable income net of applicable deductions;
- Fringe benefits tax (same rate as the 32% corporate income tax) is imposed on the grossed-up value of the benefits given by employers to their managerial and supervisory employees (this is a final tax to be paid by the employer);
- A final dax to be paid by the eniployer), MCIT of 2% based on gross income, as defined under the Tax Code, is required to be paid at the end of the year starting on the fourth year from the date of registration with the Bureau of Internal Revenue whenever the RCIT is lower than the MCIT;
- NOLCO is made universally available to all taxpayers engaged in trade or business or practice of
- NOLCO is made universally available to all taxpayers engaged in trade or business or practice of profession, subject to certain limitations; The amount of interest expense allowed as income tax deduction is reduced by an amount equal to 38% in 2000 and onwards of the interest income subjected to final tax; Foreign currency transactions with non-residents of the Philippines and other offshore banking units (offshore income) are tax-exempt; Foreign currency transactions with foreign currency deposit units, local commercial banks, and branches of foreign banks are subject to 10% withholding tax; Withholding tax of 7.5% is imposed on interest earned by residents under the expanded foreign currency denosit system.
- currency deposit system.

Gross Receipts Tax (GRT)/Value Added Tax (VAT)

In 2002 and prior years, the Bank is subject to tax on gross receipts derived from sources within the Philippines in accordance with the following schedule:

On interest, commissions and discounts from lending activities as well as income from financial leasing, on the basis of remaining maturities of instruments from which such receipts are derived:

Short-term maturity	
(not in excess of two years)	5%
Medium-term maturity (over two years	
but not exceeding four years)	3%
Long-term maturity –	
1. Over four years but not	
exceeding seven years	1%
2. Over seven years	0%

On royalties, rentals of property, real or personal profits from exchange and all other items treated as gross income under Section 32 of the NIRC

Provided, however, that in case the maturity period referred to in paragraph (a) is shortened thru pretermination, then the maturity period shall be reckoned to end as of the date of pretermination for purposes of classifying the transaction as short, medium or long-term and the correct rate of tax shall be applied accordingly.

Beginning January 1, 2003, the imposition of VAT on banks and financial institutions became effective pursuant to the provisions of Republic Act 9010. The Bank became subject to the VAT of 10% based on its gross receipts, in lieu of the GRT under Sections 121 and 122 of the Tax Code which was

imposed on banks, non-banks financial intermediaries and finance companies in prior years.
On January 29, 2004, Republic Act 9238 reverts the imposition of GRT on banks and financial institutions. This law is retroactive on January 1, 2004.
The Bank will adhere to the transitional guidelines to be provided by the Bureau of Internal Revenue

(BIR) on the final disposition of the uncollected Output VAT as of December 31, 2003.

	P 66.870.998.715	P 46.373.063.267

In compliance with the requirements of the General Banking Act relative to the Bank's trust functions: a) investment in governments of the General Banking Act relative to the Banks trust functions: a) investment in government securities with a total face value of P617 million in 2003 and P366 million in 2002 are deposited with BSP as security for the Bank's faithful compliance with its fiduciary obligations; and b) a certain percentage of the Bank's trust income is transferred to surplus reserve. This yearly transfer is required until the surplus reserve for trust function is equivalent to 20% of the Bank's authorized capital stock.

Income from trust operations are reported net of the related expenses.

22. MERGERS AND ACQUISITIONS

On July 14, 2003, the Bank acquired 100% of the shares of stock of BSPI from Santander Central Hispano, S.A. (BSCH) and certain minority shareholders at P2.6 billion representing BSPI's adjusted net book value as of July 31, 2003. The total assets and total liabilities of BSPI as of July 31, 2003 amounted to P5,038,599,377 and P2,459,139,279, respectively.

amounted to P5,038,599,377 and P2,459,139,279, respectively.
Simultaneous with the acquisition, the Bank executed an Escrow Agreement with BSCH whereby 10% of the purchase price and 10% of BSPI's shares were held by the escrow agent to be acquired by the Bank on a date mutually agreed upon by and between the Bank and BSCH which shall not exceed a period of six months from the first closing date. The 10% purchase price held under escrow amounting to P257,946,010 is presented as part of the Other Resources account in the 2003 consolidated statement of condition (see Note 11). This amount and the 10% BSPI shares were subsequently released from escrow on February 26, 2004.

Also, on July 14, 2003, BDO Capital acquired 100% of the shares of stock of SISPI at P28.5 million representing SISPI's adjusted net book value as of July 31, 2003 at P32.746 per share. The total assets and liabilities of SISPI as of July 31, 2003 amounted to P31,921,190 and P3,419,036, respectively.

On February 27, 2004, BSPI changed its name to BDO Private Bank, Inc. as approved by the SEC Subsequently, on March 1, 2004, the SEC approved the amended articles of incorporation of SISPI which provides for the change in corporate name of SISPI to BDO Securities Corporation.

In a Memorandum of Agreement (MOA) dated October 22, 2002, the Bank assumed the deposit and other liabilities of First e-Bank Corporation (1st e-Bank), up to a maximum of P10 billion effective October 23, 2002. The breakdown of these liabilities (amounts in millions) follows:

Deposit liabilities	Р	9,010
Bills payable		203
Overnight clearing line		779
Other liabilities		8
	P	10 000

In consideration for the assumption of 1st e-Bank's deposit and other liabilities, the Bank obtained P10 billion in October 2002, P2.9 billion of which remains in escrow as of December 31, 2003 pending compliance with certain terms and conditions as stipulated in the MOA (see Note 11).

On September 30, 2000 and August 9, 2000, the stockholders of the Bank and DHBI, respectively, approved the "Plan of Merger" of the two banks. As a result of the Plan of Merger, the following were effected:

- The Bank became the surviving corporation and the separate corporate existence of DHBI

- The Bank became the surviving corporation and the separate corporate existence of DHBI ceased; The Bank acquired all the rights, privileges, properties, branches, offices, and franchises of DHBI, and all property, real or personal, and all receivables due on whatever account, including subscriptions to shares and all and every other interest of, or belonging to, or due to DHBI, shall be taken by and deemed transferred to and vested in the Bank by operation of law and by virtue of and as provided in Section 80 (4) of the Corporation Code, without further act or deed; The Bank became responsible and liable for all the liabilities and obligations of DHBI in the same manner as if the Bank had itself incurred such liabilities or obligations, and any pending claim, action or proceeding brought by or against the Bank and on proceeding brought by or against the Bank; and on the BDD of the Bank and DHBI approved the exchange ratio of 6.4360205:1, or 6.4360205 common shares of the Bank for every one DHBI common share. As of October 30, 2000, the date of Plan of Merger, the Bank had an outstanding capital stock consisting of 1,050,000 common shares all with a par value of P100 per share. On the same date, DHBI had an outstanding capital stock consisting of 26,700,000 common shares all with par value of P100 per share. Accordingly, the Bank issued 171,841,747 common shares to the owners of DHBI.

On February 27, 2001 and June 15, 2001, the BSP and SEC, respectively, approved the above merger. Consequently, DHBI's total assets of about P3.907 billion and total liabilities of about P1.869 billion were absorbed by the Bank.

23. RELATED PARTY TRANSACTIONS

In the ordinary course of business, the Bank has loan transactions with its affiliates and with certain directors, officers, stockholders and related interests (DOSRI). Under existing policies of the Bank, these loans are made on substantially the same terms as loans granted to other individuals and businesses of comparable risks. The General Banking Act and BSP regulations limit the amount of the loans granted by a Bank to each affiliate to 25% of capital funds. The amount of individual loans to DOSRI, of which 70% must be secured, should not exceed the amount of the deposit and book value of their investment in the Bank. In the aggregate, loans to DOSRI generally should not exceed the total capital funds or 15% of the total loan portfolio of the Bank, whichever is lower. The following additional information is also presented relative to the DOSRI loans (amounts in thousands of pesos):

thousands of pesos):

•	2003	2002
Total outstanding DOSRI loans	P 8,096,587	P 7,565,990
% to total loan portfolio	13.5%	13.8%
% of unsecured DOSRI loans to total DOSRI loans	0.6%	3.0%

In 2003, the Bank has a past due DOSRI loan amounting to about P4.5 million (P5 million in 2002) which represents .06% of the total DOSRI loans as of December 31, 2003.

26. COMMITMENTS AND CONTINGENT LIABILITIES

Agreement with Social Security System (SSS)

The Bank signed a letter agreement dated December 30, 2003 with SSS regarding the sale of the latter's 187,847,891 common shares of stock in Equitable PCI Bank, Inc. with a par value of P10 per share constituting approximately 25.8% ownership in Equitable PCI Bank, Inc. The stated consideration consists of (a) 6 1/2 year, zero-common, non-amortizing note issued by the Bank with a face value of P12,935,842,156 and (b) a cash payment of P1 billion. The market value of Equitable PCI Bank, Inc.'s shares as of December 31, 2003 amounted to P33.5 per share.

The note shall be secured by any combination of the following: (a) cash, (b) Philippine Government Securities, (c) mutually accepted securities of highly-rated Philippine corporates, (d) shares at 90% valuation at market, and (e) any other mutually accepted securities.

The Bank will issue the note and remit the cash payment and SSS will transfer all the rights, title and interest in and to the shares to the Bank on closing date, which shall be on or before June 30, 2004.

As of December 31, 2003, the Bank has not issued a note nor remitted cash payment to SSS.

In the normal course of the Bank's operations, there are various outstanding commitments and the format course of the Balli's Operations, uree are various outstaining commitments and contingent liabilities such as guarantees, commitments to extend credit, etc., which are not reflected in the accompanying consolidated financial statements. The Bank recognizes in its books any losses and liabilities incurred in the course of its operations as soon as these become determinable and quantifiable. Management believes that, as of

December 31, 2003, no additional material losses or liabilities are required to be recognized in

the accompanying consolidated financial statements as a result of the above commitments and

Following is a summary of the Bank's commitments and contingent accounts:
